PRICE \$1.50 PER YEAR

KNIGHTS OF COLUMBUS DRIVE HAS STARTED

In Aid of Army Huts Fund,
Canvassers Will Cover
Vulcan District

The Dominion wide drive undertaken by the Knights of Columbus in aid of the Army Huts Fund began this week. The local organization has been completed and canvassers will cover the entire district during the week.

The district begins at Red Deer in the north extending to High River from east and west the territory embraces all localities between Oyen and Banff.

Throughout the Dominion the mark set is the sum of \$500,000. The proceeds of the campaign are for the boys in khaki. The association has been carrying on its most useful work for the past three years and this is the first time the people of the west have been requested to assist in the provision of funds for the work.

Over twenty permanent locations have been established overseas and a chapel and marquee are attached to each Canadian division. The work has been vigorously endorsed by General Turner, in command of the Canadian forces in England, by His Excellency the Governor General, by Premier Stewart, who has recently returned from a trip to the front.

The welfare of all soldiers is looked after, healthful recreation is provided and everything is done to help the soldier, on service and on leave.

The Knights of Columbus are acting as trustees in this matter, and the money is distributed by the chaplains attached to the forces.

Everybody in this district should give freely to this worthy cause.

The following are a few letters of recommendation to the State Deputy of the K. of C.:

Dear Sir:
I wish you every success in the effort to increase the scope of the Canadian Army Huts in the areas of the Canadian forces. I feel they fill a long felt want, particularly among our Canadian soldiers, is providing for their welfare. I hope you continue these additional comforts for the men.
(Sgd.) General Turner.

Dear Sir:
I am in receipt of yours of the 10th inst., and in reply would say that I shall be very pleased to become Honorary President of the Alberta Organization of the Knights of Columbus in connection with the Fund and Drive for the purpose of raising money for the erection of huts and recreation camps for the comfort and welfare of our Canadian boys overseas.
The work of the Y.M.C.A., and similar organizations cannot receive sufficient commendation for the splendid work they are doing for our soldiers, and I am pleased to note that an organization such as yours is also willing to work for a noble project.
You have my best wishes in your endeavors.
Faithfully yours,
(Sgd.) R. C. Ureth,
Lieutenant Governor of the Province of Alberta.

Dear Sir:
I am in receipt of your letter of September 5th., regarding the drive being made by your Society throughout Canada to secure \$500,000 for comforts for Canadian soldiers overseas.
I am thoroughly in sympathy with this effort being made by you, and will be glad to act as a patron. The cause in which you are working should commend itself to every patriotic citizen, and I wish you every success.
Yours very truly
(Sgd.) Chas. Stewart.

"He died in harness, poor chap." "Yes, and by the way, did you ever notice how much like a harness life is? There are traces of care, lines of trouble, bits of good fortune and breaches of faith. Also tongues must be bridled, passions curbed, and everybody has to tug to pull through."

A big dance and concert will be given this evening at High River. All the musicians on this line are taking part in the programme.

IT'S HERE IN THIS PROVINCE

And we believe it is right here in this district, so get busy farmers and "dig it up." It's worth the trouble both from the intrinsic value of the prize offered and from the advertisement to be derived. We are referring to the \$500.00 Silver Cup, offered by the C. P. R. for the best half bushel of hard spring wheat exhibited at the "Soil Products Exhibition" to be held at Kansas City, Mo., October 16 to 26 next. This competition is open to the world, except Germany, but this competition don't scare us with our knowledge of previous experience in growing hard wheat in this district. The best in the world is here produced, and we believe that half-bushel, and more of it if they want it, is here this year in this particular district because while the crops are generally short the quality is there and we would like to see this much coveted award brought to Southern Alberta and to this district in particular if the grade is here, and it is here if you will only "dig it up" and show it at this exhibition. The other provinces of Canada are after it and last year Manitoba captured not only the prizes for wheat but also those for oats, barley and rye. So get busy. Look over your wheat and submit your sample at this show and if possible bring back this prize to Alberta and put your name and that of your district on the map.

CAPTURED HIS FATHER

How an American private took his own father prisoner during the recent push is told by an American Red Cross worker who was in the thick of it. He writes: "Some American soldiers were rounding up a pocket of stray German soldiers in a clump of woods when a group of about twenty of the enemy suddenly appeared with hands over their heads in token of surrender. Several of the Americans were detailed to take the prisoners back to the rear. The first of these Americans, a strapping young fellow from the middle west, suddenly recognised in one of the prisoners his own father, a middle-aged man of German birth, who had been back in Germany on a visit at the outbreak of war and had been drafted into the German army. It was an affecting meeting. The son was inclined to be a little out of patience with his father for being mixed up in such bad company, and it was almost ludicrous to see the father explaining with much gesturing that he had never wanted to take up arms for Germany, but had been forced into it against his will. They marched off arm-in-arm, but the boy showed good discipline, and duty delivered his father as prisoner at one of the cages behind the lines."

WHY A SECOND VICTORY LOAN

When Sir Thomas White issued his first Victory Loan last Autumn the Dominion Government had come to the point where our further participation in the war depended absolutely upon the securing of a large advance of money from the private funds of the people of Canada. The response to the Minister's appeal was magnificent. Over \$420,000,000 in Victory Bonds was subscribed. With the ever-increasing cost of the war all of that sum has been expended and the Government is now financing the war on advances from the chartered banks. As great, if not a greater sum than was raised last time is now needed, if we are to maintain our share of the burdens of the war. It is vitally essential that another Victory Loan should be floated this fall, and that it shall not fail.

This short but pointed letter about squealing appears in the New York Sun. "On reading in the 'Sun' that German newspapers are indignant because American soldiers are using shotguns, I was reminded of a 'card shark' in Leadville in '79. He had held out a big hand for killing, and had it stuck in the top of his boot. Finally he got his bank roll into a big pot and reached for his holdout to switch in, but found it gone. 'Hold on!' he yelled, 'I ain't going to play in this game, there's cheating going on.'"

A park of Canadian armoured motor cars in France, carrying machine guns. These cars have done great service especially in the last month.

SOLDIERS OF ALBERTA EXEMPT FROM TAXES

Dependents' Homes Also
Come Under Scope of New
Provincial Law

Conspicuous among exempt taxpayers this year are soldiers and soldiers' dependents. Under the two provincial acts which regulate the taxation of soldiers' property, the home property or that in which the soldier was living at the time of his enlistment, is exempt for all purposes of taxation, beginning with 1918 and continuing until two years after the declaration of peace or the soldiers' discharge from the army, whichever happens first. For all practical purposes the home, if owned by the soldier's wife, comes under the same ruling.

On all other property of soldiers, the legislation provides that no taxes can be collected although the property is taxable, until two years after the soldier's discharge, or the end of the war. Arrears of taxes on the home before 1918 or which have or may accumulate on other property owned cannot be touched by any legal proceedings, either until the conclusion of the two years.

It is understood in these acts that a soldier is a person either on active service or subject to call for service within the Empire.

CONSERVATION OF GASOLINE

Following the initiative set up in the other Allied countries, Canada, last Sunday adopted the voluntary abstinence of the use of automobiles for that day except in cases of their necessity, and a marked difference was noticed in the province and in this district as regards the amount of pleasure travel indulged in as a result of the proclamation. The forbearance will be continued on Sunday following and will, no doubt, be more generally observed as the necessity for so doing is better understood. Many of the garages in the province are advertising that they will not sell gasoline on Sunday and all seem very willing to aid the government in its endeavor to conserve the gasoline supply for the use of our "boys over there." Show your patriotism by walking on Sunday and incidentally give yourselves a little needed exercise.

The Department of Justice, Military Service Branch, has issued a notice to United States Citizens in Canada of an order adopted by the United States Military Service Convention Regulations and approved on Aug. 20th, 1918 and which specifies the regulations under which such persons must comply with their registrations regarding military service. See the display advertisement in this issue for particulars.

For advertising purposes this year is as good as any Southern Alberta ever had. A country that can raise 20 to 25 bushels to the acre crops, where good farming methods have been practised in a year, when moisture was almost negligible, is one worth while talking about.

Hon. C. R. Mitchell has sold the entire bunch of horses on his Seven Persons ranch to J. J. Colan. There were about 250 head in the bunch and the difficulty of obtaining feed was the reason for prompt sale. Mr. Mitchell expects to crop about 900 acres of the ranch next year.

LOCAL ITEMS OF INTEREST

A big dance will be held at Carmanagay next Friday in Miller's hall. This hall has just lately been completed and the dance floor is 40 x 120 feet.

Dr. H. Meeklenburg, the well known eye-sight specialist of Edmonton, will be again in Vulcan on Tuesday, Oct. 8th. We strongly advise you to consult him if your eyes or glasses are troubling you.—Advt. 8-2p.

Mr. Geo. Terwilliger of Calgary, was in Vulcan the latter part of last week. Lou Parr of Calgary, was a business visitor to Vulcan last Friday.

A Brant baseball fan informs us that the reason why Brant ladies always lose is because so many of them are bow-legged. Nothing like this in our family. The Vulcan ladies are all A1.

The ladies baseball team of Vulcan played the ladies of Brant last Friday evening. The score was 14 to 7 in favor of the local hen aggregation. Brant made a very fine showing in the first inning, but fell down in the last. Our girls were cold from the long drive and it took considerable time before they got the right "jazz" movement. Miss McQueen and Mrs. Morton did splendid work for the locals.

Messrs. Robt White and Floyd Atkinson motored to Calgary last Saturday.

Miss Mary McDonald of the Ensign school, spent Sunday with friends in Vulcan.

Editor and Mrs. R. W. Glover, and Mr. and Mrs. A. J. Flood, left last Saturday afternoon for Edmonton in Mr. Floods automobile. They are expected back the latter part of this week.

The Reid Hill Women's Institute will meet at the home of Mrs. C. M. Greenlee on Wednesday, October 2nd. The purpose of this meeting will be to pack boxes for the soldiers at the front. Everybody is cordially invited to attend.

Mr. Russell of the Department of Interior, engineer in charge of the works that will be done on the Highwood river, west of High River are busily engaged at work. The party are camped on the farm of Mr. Holk, and are having difficulty in securing horses and teams to proceed with the work owing to farmers being so busy threshing and harvesting. Nine teams had to be sent from Banff where they were engaged on government work.

Mr. Peters, Commissioner of Irrigation at Calgary, was in High River on Tuesday. There will be employment for about twenty men. We learn that the work will be of a permanent nature and will protect the lands that formerly were endangered during the rainy season.

Capt. C. T. Galbraith, who has been with the R.A.M.C. in France since 1915 and was home two years ago, has written his brother, Mr. D. H. Galbraith at Vulcan, that after one more turn in the trenches he expects to leave for Canada, and hopes to be in Vulcan by the middle of October.

A position is wanted by a competent housekeeper. A good cook. Apply at the Advocate office.

The Red Cross school district acknowledges the sum of \$2.00 from Geo. Eamort to the Red Cross fund.

Mrs. M. P. Gordon arrived on Saturday last, and is visiting with her son, Mr. M. L. Gordon.

THRESHING GENERAL; YIELD IS FAIRLY GOOD

Threshers' Returns Begin to
Come In Slowly and Sur-
prising Yields Continue

Threshing operations are in progress over the entire south of Alberta this week, and with the continued fine weather which has been experienced for the past week or two, operations will very quickly be finished up. The weather has been most ideal for harvesting.

As the threshers' returns begin to come in slowly, the surprising yields continue to increase in number, and while the crop on the whole, taking the entire crop area into consideration, will not greatly exceed the provincial estimate of five bushels, yet the summerfallow crops in this district, and especially new breaking, are yielding amazingly well, some going as high as 30 bushels. The average on this land over the district will be about 15 bushels which is much better than expected.

ROGER CLINE SENTENCED TO TWO YEARS' IN JAIL

Roger Cline, arrested and brought to Lethbridge from Calgary, was sentenced to two years imprisonment for stealing a horse, the property of G. Todd, of Vulcan. The prisoner had served a month's imprisonment in the local jail for false pretences and was drafted into the army on completion of the same. He was committed for trial on the present charge at Vulcan and electing for speedy trial pleaded guilty at the district court at Lethbridge.

Judge McNeil said he would take up for consideration with the department of justice the prisoner's plea to be sent to the front.

DIES AFTER SHORT ILLNESS

On Saturday at the Calgary General Hospital there passed away Chester Hume, the fourteen year old son of Mr. and Mrs. F. Maiden, after a very brief illness. The young lad was well and favorably known in the community, whilst apparently in good health and of a stalwart built, his life was being snapped by an insidious disease that only when too late was discovered to have worked its ravages. The grief-stricken parents have the sympathy of the whole community. The remains were embalmed in Calgary and were taken on Monday to the family plot in Marshall town, Iowa, where it was expected that the only remaining child, Edmund, now in the U. S. A. Marines cantonment at Galveston, Texas, would meet the cortege. Mr. and Mrs. Maiden are expected back in about ten days.

Jack Marshall has sold his interests in 17-22 to his brother, Jim. Mr. Marshall will move to Vulcan for the winter.

Miss Retta Marshall was taken to the Calgary General hospital last Friday night and was operated on for appendicitis the same evening. The last report is that she is doing nicely.

The ladies baseball team of Brant are coming down to Vulcan to meet their doom on Friday evening. The game is called for 5:30 sharp, and everybody is to be on time, as this may be the last time this season that the bloomers will be in action.

In some quarters it has been suggested that Canadians should be put on rations and not on their honor regarding food.

Mr. Art Webber of the Blackie district was fortunate in striking a flowing well on his farm at a depth of 163 feet. The water is of a soft variety and the volume is sufficient to supply the neighbors if they desire.

Mr. and Mrs. W. F. Jennejohn were Calgary visitors on Wednesday last.

For particulars of the big stampede to be held in Vulcan on October 2nd, see the Advocate next week.

Joe Taylor of the High River Times is down this week for a few days taking instructions in advt. composition.

W. E. Butchart and Peter Gillespie motored to Calgary on Thursday last.

CELEBRATE 50th ANNIVERSARY

On Tuesday, September 17th Mr. and Mrs. Wm. Shimp of Boyden, Iowa, celebrated their 50th anniversary of their wedding at the home of their son, A. B. Shimp, at Stavely. Mrs. L. E. Newton of Nanton, J. E. Shimp, of Portland and C. B. Shimp of Vulcan, were present. Mr. and Mrs. Shimp are delighted with the crop prospects here as they expected to find a complete failure this year. After an extended stay at Stavely, Nanton and Vulcan they will visit their daughter at Kalispell, Mont., then on to Portland and from there to California for the winter. Then they will go back to Iowa where they have a son and daughter living.

HUN PLOT UNCOVERED

Inject poison into rubber rings for fruit jars. Examine thoroughly before eating.

Acting on instructions from officials of the Ontario government, an analysis has been reported on suspicious circumstances which the residents at Muskoka, Ont. believe to be the result of poisoning from eating freshly canned fruit. It is understood that the analyst has found phenol on the rubber rings used on the jars in which the fruit was canned. German agents are believed to be responsible for the crime.

Phenol is a poison similar and acts like carbolic acid. The rings used in Muskoka, it is understood, originally came from the United States. Quantities have also been located in Alberta and Saskatchewan. An investigation is now under way, both here and in the west.

Many housewives at Calgary who have used the rubber rings that had poisonous taint, have found in a number of cases that their fruit has spoiled. Others hearing of the danger, will not use the fruit that has been preserved in sealers on which the rubber rings have been used. A recent report stated that there have been cases where people have been poisoned.

NOTE THE TURNING POST

The town council is giving the public up to September 27th, 1918, to get accustomed to the centre post opposite the hotel. This post has been put there for the purpose to have all traffic turn to the right in order to avoid accidents. A fine will be imposed on every offender of this by-law after the date above mentioned.

AUTUMN CULTIVATION FOR WEED CONTROL

The ploughing of the land in the fall is desirable as a part of the regular work of the farm since it enables the ground to be got into proper condition for sowing the seed in the spring considerably earlier than would otherwise be the case. But it is perhaps of even greater importance as a means of keeping weeds in check. In the case of perennial weeds the mere turning up and exposing of the rootstocks to the action of the frost will serve as a considerable check to the weeds in cases where they are not killed outright. Where it is desirable to collect and burn creeping rootstocks this can be more readily accomplished where the ground has been pulverised by the frost and snow of winter.

In the case of the annual weeds these are of two classes from the point of view of their life-history. One group requires a resting period before the seeds will germinate and this holds good even if the conditions with regard to moisture and temperature are suitable. These normally germinate in the spring of the following year after they are shed, but in many species the germination can be delayed for several years if the seeds are buried to a considerable depth in the soil. This is true of such species as Wild Oats and Wild Mustard. Each time the surface of the ground is disturbed some of these buried seeds will germinate and if no other seeds are allowed to fall into the soil in the meantime, the ground will eventually become clear of them.

L. H. Stack visited in Calgary over Sunday.

THE KAISER'S LATEST EFFORT

The recent speech of the German emperor, delivered before the workmen of Krupp's munition works at Essen, is a conglomerate of defiance, hope, depression, goodwill and hatred towards the Allies, depression, veiled but sincere, at Germany's failure to date, goodwill over a belief which he knows to be impossible, the belief in Germany's final victory, and hatred against those who still oppose his autocratic will. To wind up with the Kaiser's last words on his hobby of Scriptural quotation and exposition, mixing his own creed with that of Isaiah and Christ until both the latter are construed as the special patrons of the Fatherland.

Four years of war have so accustomed us to the verbal tricks of the Kaiser that we pass by for what it is worth and merely speculate as to what he really is getting at. It is useless for him to protest in Germany's fighting a defensive war; the direct is given by the present situation of the armies, and we smile at his naive assertion that he has "left no stone unturned to shorten the war." Even the stones of Rheims cathedral were turned for a victory within a few months of the spoliation of Belgium. The speech means more than that because we have had very much the same thing before.

The theatrical in the Kaiser is appealing to more than the gallery this time; there are eyes in the boxes and orchestra stalls he wants now, and so, under the grand theme of appealing patriotically to the workman at Krupp's, he trusts to the Allied nations interpreting his words as the opening of the door of peace. Do not let us forget that with all his hoodwinking of the German people the Kaiser is well informed on German's chances and knows that they are gradually dwindling toward the inevitable crash. How best then, is he to work the double trick of offering war speeches to the people steadfast in the supposed righteousness of Germany's essential to the last; but an early peace is also necessary if the power of Kaiserism is to be preserved through it all. Hence the speech, with its strange mixture of appeal, cant and humbug.

But only the German people will be affected thereby. All the efforts to swing open the door of peace are unavailing until the time is ripe. The barbaric age of murder and pillage has gone, and no nation who practices such can commence and leave off at will. Here is the crime and here must

be the punishment, and those who are the instruments of punishment will win the time, though the road be long and the sacrifice great. By such means only can the world obtain a just and lasting peace.

THE VALUE OF A LIVE TOWN

The value of a live town to a farming community cannot well be exaggerated, yet it is nevertheless a fact that more often than not this value is greatly underestimated by the average farmer. He does not seem to realize that the value of any agricultural land is very appreciably affected, either advantageously or adversely, by the trading centre which it surrounds. A prospective settler, for instance, invariably and very naturally enquires as to what kind of trading centre the district possesses. How many stores are there? What public institutions such as churches, schools, banks, etc., are there? What marketing facilities prevail? Are there electric light, waterworks and telephone systems installed? Are the stores up-to-date and do they carry a well-assorted stock? What other advantages or privileges exist, such as climatic conditions and attractive scenery, which help to make life worth living, while at the same time, affording a means of gaining a decent livelihood? All these questions enter into the consideration and form a vital factor to a prospective settler who contemplates taking up his residence in any locality. A town in which the stores are deprived of their legitimate business on account of mail-order trading is a poor advertisement to any community of district, and no district, however good it may be otherwise, will ever be very prosperous or will develop as it should under such distressing and unwarrantable conditions.

The fact is that the town is just as essential to the development of the district as the district is to the town. Their interests being identical, it is to the advantage of both to harmonize and pull together. The one cannot enjoy a very great amount of prosperity without, at least to some extent, benefiting the other; nevertheless such prosperity can be and often is through shortsightedness, very appreciably retarded and diminished where the one strives to thrive at the expense of the detriment of the other. Unintentional action on the part of both, emanating from a genuine community spirit, is what counts for most in the long run.

MENNONITES CAN BE MADE TO SERVE

The assurance of Hon. Mr. Calder that the Mennonites coming to Canada from the United States cannot evade the draft, is gratifying. It means that an American citizen of the Mennonite faith, subject to the military draft, can be taken for service in Canada. Crossing the boundary does not set him free from service.

Their status in Canada will be established when they become Canadian citizens. No special privilege must be accorded them, and we do not believe any special privilege will be accorded them. Canada must not have as citizens any people who think so little of the country as not to be willing to defend it. If they want a Utopia let them establish it somewhere

else. They might even now try and reach Russia and join hands with the Bolsheviks. If nothing can be done to prevent them settling in Canada, it must be understood by them that citizenship in Canada means all the obligations of Canadian citizenship.

As to the use of the German language in Mennonite schools Hon. Geo. P. Smith, Minister of Education, should make clear at once that it will not be tolerated. English must be the language of Alberta and every new settler from other lands must understand that he cannot have his children educated in any other language but the English.—Lethbridge Herald.

THE NEW VICTORY LOAN

Decks are now being cleared for action in connection with the new Victory Loan, and it is confidently expected that every Canadian citizen will do their utmost to make this new issue as successful as the previous one undoubtedly was. From now on every available dollar in this and every other district throughout the Dominion should be contributing towards the new loan.

After four strenuous years there is no necessity to remind our readers that to support the new loan to the utmost of their individual ability is a national and patriotic duty, for we heartily believe that the money will be loaned to the country in a manner and with the genuine spirit which is characteristic of Canadian citizenship. Read carefully what will be said about the new loan throughout the press and you will be convinced as to what is the right course for you to adopt in connection with the matter.

Thirteen million Americans registered on September 12 in the second war draft and from this total three million will be chosen for service in France. Carry the news to the Kaiser.

By the manner in which the Germans report the war news these days, we may soon expect them to say that their 'gallant army' is being escorted to the Rhine by British, French and American troops.

The Kaiser speaks of his navy as a "death defying" navy. Probably he means death by stagnation.

Premier Lloyd George says that nothing but heart failure on the part of England can prevent a decisive victory. England's heart does not suffer, and what is more, it is in the right place.

The imperial vice chancellor says that Germany might restore Belgium "under certain conditions." She certainly will, but they will hardly be the conditions he mentions.

Premier Lloyd George is reported to be suffering from a severe cold. There is, however, no danger of the complaint affecting his feet.

Liquor in barrels labelled "saucers" and shipped into Toronto were seized by the police. One would have expected better than the adoption of a Hun name for the real stuff.

After the Germans had made their advance last spring from St. Quintin to Moridier en route to Paris, one of the newspapers owned by Krupp's asked, "If Paris were to be blotted out would be anything be lost?" Fortunately Paris was saved, otherwise, Paris, the beautiful would have been destroyed by the beastly Hun. In the meantime let the Allies bear this in mind when they enter Berlin. It might be well to give the Hun a taste of what France and Belgium has suffered.

So far as this part of Canada is concerned, more benefit is being derived from the daylight saving scheme at this time than when the days were at the longest. Naturally, when there is less daylight to waste, a saving measure is more of a benefit. With the light lasting for an hour or more after the evening meal we enjoy the pleasant illusion that summer is lingering longer than it did in other years.

"Mackay while the sun shines," is the slogan of the Hon. A. G. Mackay, who has just been appointed Minister of Municipal Affairs in the Stewart government.—Chinook News.

Bassano is opening a town coal mine. The price has been placed at \$3.50 per ton for run of mine coal, but subject to change.

JUST AMERICANS

You must not call them Sammies,
You should not call them Yanks,
And if you call them Doughboys,
Loud laughter splits their ranks;
You will not call them Buddies,
And when on Kultur's track
You need not call them forward,
You cannot call them back.

—London Chronicle

A writer in Harper's magazine tells of a conversation he had with an old and famous instructor in a military College in Britain, whom he asked whether on the whole the best students had afterwards proven the best officers. The reply was: "Much the three best students I ever had were, Haig, Robertson and Rawlinson, in that order of merit."

WASTE PAPER AS FUEL

Waste paper is being used as fuel by some women who devise every way possible to cut down their coal bill. They take old newspapers, wrapping paper, cardboard or any other old waste paper and tear it up into small pieces and place in a water-tight receptacle. Boiling water is then poured over it, and it is left until the mass becomes soft, usually taking about twelve hours. This mass is usually made into small balls about four inches in diameter, which are set in the sun to dry, or may be dried in an oven. When thoroughly dry these balls are ready to use. They catch fire quickly and burn slowly and have been found a very satisfactory substitute for coal.

What Will You Do For Help?

FARM help is scarce, but this condition can be relieved to a marked degree by using machines that accomplish more work in a given time with less man power.

Why should the farmer cling to horses—a slow, expensive means of power—when every other business is adopting the truck and thereby reducing the cost of hauling, speeding up deliveries, and saving for human needs the food that the horses would otherwise consume?

The motor driven truck can work constantly at maximum load under the burning summer sun, or in the coldest weather. Unlike the horse it needs no rest while working, it eats only while in actual use, and when the day's work is done it requires very little attention, and leaves you free for other "chores" about the place. Then, it can be housed in one-quarter the space of the horses, wagon and harness it replaces.

It is a mistaken idea that a truck is useful only for driving upon paved roads. The Ford can be driven all over the farm, and used for hauling grain, potatoes, fruit, roots, fertilizer, wood, stock, milk or any other product. The speed it travels, the time it saves, and its low upkeep cost appeal very strongly to all users of the Ford Truck. If you need help, order your Ford One Ton Truck today.

All prices subject to war tax charges, except trucks and chassis

OLDS, ALBERTA

NEW MAP OF NORTHERN ALBERTA

A new edition of a map, much sought after by prospective settlers in Western Canada, namely the Northern Alberta Homestead Map, has just been issued by the department of the Interior, Ottawa, and is most comprehensive in the information contained.

By an elaborate color scheme, the vast land area involved is divided in such a way as to clearly indicate the disposition of the whole. Persons desiring copies of the map should make application to the Superintendent of the Natural Resources Intelligence branch, Department of the Interior.

The Thrift Car

Model 90 cars are helping many Canadians to do more work, to save time and to save money.

Considering the quality of Model 90, it is priced unusually low.

No one knows how far the shortage of material will go.

But you do know that we are unusually well prepared to take care of all service and parts requirements. Even extraordinary requirements can be promptly supplied from our Toronto factory or nearby Branches.

THE CLARION CALL TO THE DISTRICT OF VULCAN

HELP!

WONT you help make it possible for all the bops to be inside. You inside? You, everybody, can give something. Put your fighting dollars behind our fighting lads. Give them your loyal support, the help, comfort, care and consolation you would want if you were there.

There Is Absolutely no distinction of Race or Creed. All Soldiers Are Administered to Alike

Everybody Welcome and Everything Free for the Men here and Overseas. \$5,000.00 is needed quickly. The increasing demand for more huts and supplies is great. Far greater than our finance at the present can maintain. So, wont you stand behind our boys behind the guns. Give as much as you can.

The Knights of Columbus Dominion Huts Wide Appeal begins September 15th, and ends September 23rd. Canvassers will call upon you during the week.

Be Generous to the Call of the Overseas Workers

CHAMPION NEWS

Miss Halsall who has been spending her vacation with her sister, Mrs. Brown has accepted a position on the staff of the Nanton Consolidated school. Miss Halsall left town for Nanton last week.

Mr. W. Mc C. Moore, manager of the Lethbridge exhibition, and family spent the week end with Mr. and Mrs. Rev. Haddon.

Mrs. J. N. Crane of Halifax, who is visiting her daughter, Mrs. W. McC. Moore, Lethbridge, spent the weekend with Rev. and Mrs. Haddon.

Mrs. Brown and daughter spent a few days in Carmangay last week.

C. Roberts is the proud owner of a Briscoe Car.

Mrs. Geo. Campbell leaves for Port Arthur, Tuesday this week. Mrs. Campbell is journeying east to see her brother, Pte. W. Ledgerwood, who leaves for the front shortly.

The local school is certainly cramped for rooms these days. The High School pupils have been moved to Campbell's hall.

Mr. and Mrs. J. McDougall and Mr. and Mrs. Geo. Orr were visitors at the home of Mr. and Mrs. Chamberlin Sunday last.

Mr. Tait of Calgary, was a visitor at the parsonage Thursday evening.

The local branch of the Women's Institute will hold its monthly meeting at the home of Mrs. Jopling, N-E of town, Wednesday afternoon. A cordial invitation is extended to ladies of the town and country.

Forest Coal while threshing on Al. Duncan's place, 4 miles west of town, met with rather a serious accident on Saturday morning, Sept. 7. It is supposed that while Mr. Coal was oiling his engine or screwing down the screw caps some how the sleeve of his coat caught between the clutch pulley and the drive pulley and before the engine could be stopped his arm was almost lacerated from his shoulder. Mr. Coal was at once brought to Dr. Tablot who saw that the arm was so seriously injured, decided at once to send the patient to Lethbridge hospital. After Dr. Tablot had done all he possibly could in dressing the wounds, etc, he was sent to Lethbridge on the noon train. Reports to date state that Mr. Coal is progressing favorably. It is not yet known whether the arm will be amputated or not.

On Wednesday afternoon Arthur McEwan brought in a load of wheat, 46½ bushels to the Alberta Pacific elevator. Mr. Defue the agent noting the man to be a stranger felt rather suspicious about the grain, consequently notified police magistrate Alcock, who after thoroughly investigating the case discovered that the grain had been stolen from Herb Rhodes, 16½, 12 miles east of town. Mr. McEwan was brought up for trial on Wednesday evening and pleaded guilty. Police Magistrate Alcock after taking into consideration the age of the accused which is only 18 years, sentenced the young man to 3 months hard labor and cost of court.

The local Red Cross Society are doing splendid work these days.

NOTICE

TO UNITED STATES CITIZENS IN CANADA.

By the United States Military Service Convention Regulations, approved by the Governor-in-Council on 20th August, 1918, MALE CITIZENS OF THE UNITED STATES IN CANADA, WITHIN THE AGES for the time being SPECIFIED BY THE LAWS OF THE UNITED STATES prescribing compulsory military service, except those who have diplomatic exemption, ARE MADE SUBJECT AND LIABLE TO MILITARY SERVICE IN CANADA, AND BECOME ENTITLED TO EXEMPTION OR DISCHARGE THEREFROM, UNDER THE CANADIAN LAWS AND REGULATIONS. The regulations governing this liability are published in the Canada Gazette (Extra) of 21st August, 1918; copy whereof may be obtained upon application through the post to the Director of the Military Service Branch of the Department of Justice at Ottawa.

UNITED STATES CITIZENS of the description aforesaid who were in CANADA ON 30th JULY, 1918, HAVE SIXTY DAYS FROM THAT DATE within which TO EXERCISE AN OPTION TO ENLIST or enroll IN THE FORCES OF THE UNITED

STATES, or TO RETURN to the United States; and THOSE WHO for any reason SUBSEQUENTLY BECOME LIABLE TO MILITARY SERVICE IN CANADA HAVE THIRTY DAYS FROM THE DATE of the accruing OF SUCH LIABILITY within which to exercise the like option. It is stipulated by the Convention also that certificates of diplomatic exemption may be granted within the optional periods aforesaid. EVERY CITIZEN OF THE UNITED STATES TO WHOM THE REGULATIONS APPLY is required to REPORT TO THE REGISTRAR under the Military Service Act, 1917, FOR THE province or DISTRICT WITHIN WHICH he is, in the manner by the regulations prescribed, WITHIN TEN DAYS AFTER THE EXPIRY OF HIS OPTIONAL PERIOD and will be SUBJECT TO PENALTIES IF without reasonable excuse HE FAIL SO TO REPORT. For the information of those whom it may concern Sections 3 and 4 defining the requirements of registration, with which it will be necessary strictly to comply, are set out substantially as follows:—

REGULATIONS

3. EVERY MALE CITIZEN OF THE UNITED STATES WITHIN THE AGES for the time being SPECIFIED IN THE LAWS OF THE UNITED STATES prescribing compulsory military service, not including those who have diplomatic exemption, WITHIN TEN DAYS AFTER THE EXPIRY OF THE TIME LIMITED BY THE CONVENTION within which the Government of the United States may issue him a certificate of diplomatic exemption, SHALL TRULY REPORT TO THE REGISTRAR BY REGISTERED POST, and in writing which is plainly legible, his name in full, his occupation and the date of his birth; stating also whether he is single, married or a widower; and if the latter, whether he has a child living; also if married, the date of his marriage; and stating moreover his place of residence and usual post office address in Canada; and, if he reside within a city or place where the streets and dwellings are named and numbered, the name and number of his street and dwelling; or if he reside in another place, the lot and concession number, section, township, range, and meridian, or other definite description whereby his place of residence may be located, having regard to the custom of the locality in which he lives; and IF WITHOUT REASONABLE EXCUSE HE NEGLECT OR FAIL TO

REPORT IN THE MANNER and with the particulars aforesaid within the time limited as aforesaid, HE SHALL BE GUILTY OF AN OFFENCE, AND SHALL BE LIABLE UPON SUMMARY CONVICTION to a penalty not EXCEEDING FIVE HUNDRED DOLLARS, AND TO IMPRISONMENT for any term not exceeding six months, and moreover he shall incur A PENALTY OF \$10.00 FOR EACH DAY after the time when or within which he should have registered during which he shall continue to be unregistered.

4. EVERY UNITED STATES CITIZEN WHO HAS DIPLOMATIC EXEMPTION, although not otherwise subject to these regulations SHALL WITHIN TEN DAYS after the granting of the same truly REPORT TO THE REGISTRAR, in like manner and with the same particulars as required by the last preceding section; and in addition he shall embody in his report a true and complete statement of the particulars of his certificate of diplomatic exemption. NEGLIGENCE OR FAILURE without reasonable excuse to comply with the requirements of this section SHALL CONSTITUTE AN OFFENCE PUNISHABLE IN THE MANNER AND BY THE PENALTIES provided in the last preceding section.

ISSUED BY THE DEPARTMENT OF JUSTICE, MILITARY SERVICE BRANCH.

BLACKIE NEWS

Mr. George Virgo is the possessor of an Overland car. The Saxon Six may appeal to some but he prefers the Overland.

Mr. Ratten of Vulcan, is drilling for water on Mr. John Bresnahan's farm. It would be hard luck if he simply struck gas.

Messrs Carl and Ralph Edwards of Cassano, motored over on Friday to take in the dance. Auditorium dances attract people from all over the district.

The dance given in the Auditorium on Friday last was a very enjoyable function. Klebe's orchestra maintained their reputation as musicians, and the Auditorium management scored one more success. It was a great dance.

It has been suggested by the farmers who live out of Blackie that a rural mail service be established under government supervision on the line starting from Blackie to Dinton hence to Glenview, thence to Blind Creek, thence to Mossleigh, thence to Herrington and thus making the round trip to Blackie. About 200 people would be served and it is the opinion that over 100 farmers would buy mail boxes. There is a private service in operation now with a charge of \$6.00 per box holder.

"Sincerely regret to inform you that Cpl. George Harrow, No. 30,459, infantry, is officially reported missing on August 30th." Such was the sad message received on Saturday last by Mr. and Mrs. Stanley Harrow from the Records office, Ottawa. As the number indicate, Cpl. Harrow was among the first in Canada to enlist, leaving Canada with the first contingent. He joined in August 1914, and in February 1915 was in France doing his bit, and during the long four years has been unable to come home to see his parents. Last year he was married in England and she was hopeful of coming to Canada on furlough for a few months. Mr. and Mrs. Harrow's many friends sincerely sympathize with them and will pray that he may turn up safe and sound. On August 20th the Canadians were heavily engaged and Cpl. Harrow was no doubt one of those gallant men who comprised the Canadian division that drove the Germans out and across the Hindenburg line. We regret to record that he is missing and hope that word may come of his being alive and well.

The drawing for the quilt, held in the U.F.W.A. rest rooms took place recently and the lucky number was 18 held by Mr. Tom Miles. The quilt was worth \$80 and the proceeds of the drawing went to the Y.M.C.A. fund.

The following is the report of the Blackie and district Red Cross society for the month of July and August.

July 1st money donated from dance \$27.00.

Membership	\$4.00
Receipts	31.00
Expenses, express	.75
Balance on hand	30.25
Total receipts for Red Cross Sports day, July 12:	
Booth and supper	589.55
Admissions	173.75
Dance	271.70
Tags: Wilderman, A. H.	\$177.20
Miss Archibald	\$5.00
Sale of cake	1.15
Supper money	.50
Total receipts	710.70
Expenses	
Martin 1.50; Goulter \$25.25; Redford 108.35; Schmidt \$21.40; McDonald \$51.40; Hessel \$15.65; Lumber \$175.50; Advertising \$25.00; Lung Sam \$2.50; Hall rent \$15.00; draying \$11.35; grand stand \$3.00; Prov. Police \$5.00; J. A. McDonald, \$8.40; Mr. Martin \$1.30; Mr. Orvell \$3.10; L. J. McDonald \$1.50; Fisk & Kelly \$1.70; Ice Cream \$31.25. Total expenditure \$508.15.	

August report:
W. F. W. A. \$4.25, Miss Dickinson, \$5.00; Mr. W. Richardson \$25.00; membership \$14.00; receipts 48.25; Expenses .35

Balance on hand \$47.90
Margaret Hatcher, Treasurer.

In Germany they are talking of what they will do with Belgium. Unless the common people in the Allied countries are betrayed by their rulers we can tell them what they will do with Belgium. They are going to be kicked out and they are going to leave nothing behind but the stink of their rotting carcasses and a memory as foul as hell.

The wife of a member of the U-bent crew, interned in the United States, writes to her husband from Germany: "We hope you will soon return. You are certainly to be sympathized with. We are always praying with our deepest feeling that you may not be eaten up by Indians or hanged by cowboys with lasso ropes. If they should wish to reap you, you should first make an appeal to the King of America. Is he also an Indian?"

THE EDITOR

Most any one can be an editor. All the editor has to do is to sit at a desk, six days out of the week, four weeks of the month, and twelve months of the year and 'edit' such stuff as this: Mrs. Jones of Cactus Creek let a can opener slip last week and cut herself in the pantry.

Miss Nettie Green, while milking a cow last week, was kicked south of the corn crib.

A mischievous lad of Piketown, Ohio, threw a stone and hit Mrs. Pike in the belly last Thursday.

John Doe climbed on the roof of his house last week looking for a leak and fell, striking himself on the back porch.

While Harold Green was escorting Miss Violet Wise from church last Sunday night, a savage dog attacked and bit Mr. Green on the public square.

Isaiah Trimmer of Running Creek, was playing with a cat last Friday when it scratched him on the verandah.

HELP THE BOYS "OVER THERE" BY SAVING GASOLINE

The Allies need gasoline. Waste none of it on Sunday motoring for pleasure. He who uses it for this purpose stints those who are fighting our battles. It is the duty of all motor car owners to comply with the Fuel Controller's request to save "gas."

The safety of the State being the supreme law, personal enjoyment must give place to national necessity during war time. To save gasoline is to save money. It will also ensure a more adequate supply of gas for the needs of our war machine, which must lack no essential. To comply with the Fuel Controller's request will save \$150,000 on a single Sunday. In gasoline it will also save hundreds of thousands of gallons. A word to the wise motor car owner is sufficient!

Medicine Hat Council is in favor of creating a new park, as a war memorial.

The lady bug is one of the gardeners' best friends. It is an implacable enemy on all forms of plant lice.

The seven trawlers operating in Canadian waters bring in 1,000,000 lbs. of fish weekly.

British manufacturers have been given orders for military clothing to refit 2,000,000 American soldiers.

Hard porcelain is now made successfully in Ohio. Before the war Germany and Austria had a practical monopoly of it.

President Wilson's income tax on his \$75,000 salary will be \$24,595 under the new revenue bill introduced in the house.

In the exemption appeals heard in Lethbridge last week, R. E. Walker of Cayley appeal was allowed as a farmer, actually engaged on the land.

The explanation of the poor woman's error is easy. Some of the wild and woolly American pictures have been showing in her part of Germany.

A number of Mexicans have been imported to pull flax and look after the sugar beet crop in Lambton county Ontario. They are said to be good workers.

Since the outbreak of war, France has lost 2,600,000 head of cattle. Those remaining are greatly reduced in weight and increasingly larger numbers of them have to be killed to produce the same weight of dressed meat.

Thirteen million Americans registered on Sept. 12 for the second war draft. Out of that number three million men will be chosen for service in France. There will be something doing in the vicinity of Berlin when they get there.

One of our local farmers was accosted on the street by a business man some time ago, and asked why he had sent away for a certain article that he had received from T. Erton. "I could have supplied you with a better article at less cost," declared the business man. "Well," said Mr. T. "How should I know you have it in stock; you never advertise, and the other fellow does." And still the same business man can't "tumble."—Exchange.

Have you ever, when walking along the street, been suddenly struck with the fact that you are feeling fine and the world seems just about right. No particular reason has popped into your mind, but something has given you a few minutes of real pleasure. When you get so much satisfaction without any effort on your part, perhaps, if you made it a point always to look on the bright side of things, these precious intervals, when your soul is soaring in the heights, would come more often.

SEND HIM THE ADVOCATE

Edgar A. Guest has written a poem with this title which contains such expressions as these: "I wonder what they're doin' in the old homeland;" "I wish I had a paper from the home town, old or new, and could read about the people and the places that I knew; I want the home town paper with its latest local news, for I'm wondering who has married since we bade adieu who's been buried since I left there. Oh, it seems so long ago; For a copy of the home paper I'd give six months pay; there's so much I'd like to read of and so much I want to know." Said Private Jimmy Barker, "It's a funny thing to me, But they seem to think a paper we don't ever want to see. They write us cheerful letters and they send us things to wear. They send us good tobacco, an' we're mighty grateful too. But they plumb forgot the paper from the old town over there, It's a thing we'd never part with till we'd read it through and through. Every girl and boy who is away from the old home can sympathize with these sentiments. Why not send the "Advocate?"

NOTICE—I, Ernest W. Frost, of Kircaldy, will pay \$100.00 to any person who can prove that I have ever sold or offered for sale in my store or residence any whiskey, brandy, gin or rum, or have ever stored any for any person.

LOST—1 mile east of Vulcan, one ladies black coat. Geo. Leimer, Travis, Alberta.

TO RENT

TO RENT—A good sized weather proof garage to rent. Apply to Mrs. Travis, Vulcan, Alberta.

WANTED—Good general servant. Apply Mrs. Arthur Mitchell.

WANTED—Girl or middle aged woman to tend store. Phone R815, Eastway.

MAIL CONTRACT

The Value of Experience

Is in its dependability. The better a job is done the more experience there is behind it. Particularly does this apply to the realm of Printing, which is like a country with a constant stream of new ideas; like emigrants flocking to it. They must all be used and assimilated into the work and made to produce. When you place an order for printing what do you get?

Just Paper and Ink, or
Paper and Ink *plus* Experience

THE PRINTER'S POWER

PRINTING has not yet come to its own. It is young yet, and it is democratic. It has yet to make its great record. Sweeping into its grasp are the arts of the artist, the photographer, the designer, the colorist, the paper-maker, the engraver and the book binder, and laying tribute on all the other arts, it is most directly influential in moulding the thought of a nation. *Henry Turner Bailey*

The Advocate Experience

Is used with every job turned out, and the result is that we have hundreds of customers that are satisfied, and if they were not they would get their work done elsewhere, as men are not placing orders as a matter of charity these days. They demand the best for the keenest price, and they place their order where that demand can be fulfilled. That is why the **Advocate** does the work. If you have work let us give you an estimate, and no matter what the work is; we will do it and we will do it well.
